

Earthquake and Tsunami in Japan (Follow-up report)

March 23, 2011
Yazaki Corporation

Latest status with regard to Yazaki Corporation and its group companies is as follows:

1. Damages

All the factories and branch offices referred to in March 15 report, except Fukushima Parts Company, have resumed operations.

Fukushima Parts Company, although located outside 30km radius from Fukushima Nuclear Power Plant, has been suspending its operations paying utmost attention to employees' health and safety.

2. Operations

Some factories and offices may temporarily suspend its operations, considering production schedule of third party manufacturers and suppliers. Operational programs may be affected in certain factories due to implementation of "Rolling Blackouts."

The associates of Yazaki Group are making all out efforts to support the regional reconstruction paying utmost attention to the security of people. Thank you for your kind understanding and continued support.
