The implementation of splay trees is based on the article and code published
in C++ Users Journal "Implementing Splay Trees in C++" (September 1, 2005).

The splay code has been modified and (supposedly) improved by Ion Gaztanaga.

Here is the copyright notice of the original file containing the splay code:

This file comes from SGI's sstream file. Modified by Ion Gaztanaga 2005-2012. Changed internal SGI string to a buffer. Added efficient internal buffer get/set/swap functions, so that we can obtain/establish the internal buffer without any reallocation or copy. Kill those temporaries!
